418 interstate highways, the primary system of federal-aid highways and
419 other limited access state highways. Such regulations shall be as, but
420 not more, restrictive than the controls required by Title I of the
421 Highway Beautification Act of 1965 and any amendments thereto with
422 respect to the interstate and primary systems of federal-aid highways
423 or the national standards of the Secretary of Commerce in respect to
424 the interstate highways, in effect November 13, 1958, and any
425 amendments thereto.

426 (d) The regulations promulgated by the commissioner shall, in the
427 case of such other limited access state highways, exclude any area
428 along either side of such highways which is zoned for industrial or
429 commercial use under local ordinance or zoning regulation and which,
430 upon application, is determined by the commissioner to be in actual
431 use as an industrial or commercial area at the time of application,
432 provided such exclusion shall remain operative only so long as such
433 area remains so zoned.

434 (e) The following types of signs, displays and devices may, with the
435 approval of and subject to regulations promulgated by the
436 commissioner, be permitted within the six hundred sixty-foot area of
437 interstate, primary and other limited access state highways, except as
438 prohibited by state statute, local ordinance or zoning regulation: (1)
439 Directional and other official signs or notices, which signs and notices
440 shall include, but not be limited to, signs and notices pertaining to

441 natural wonders and scenic and historical attractions which are
442 required or authorized by law; (2) signs, displays and devices
443 advertising the sale or lease of the property upon which they are
444 located; (3) signs, displays and devices advertising activities conducted
445 on the property on which they are located. Subject to regulations
446 promulgated by the commissioner and except as prohibited by state
447 statute, local ordinance or zoning regulation signs, displays and
448 devices may be erected and maintained within six hundred and sixty
449 feet of primary and other limited access state highways in areas which
450 are zoned for industrial or commercial use under authority of law or
451 located in unzoned commercial or industrial areas which areas shall be
452 determined from actual land uses and defined by regulations of the
453 commissioner. The regulations of the commissioner in regard to size,
454 spacing and lighting shall apply to any segments of the interstate
455 system which traverse commercial or industrial zones wherein the use
456 of real property adjacent to the interstate system is subject to municipal
457 regulation or control, or which traverse other areas where the land use,
458 as of September 21, 1959, was clearly established under state law as
459 industrial or commercial.

460 (f) Notwithstanding the provisions of subsections (a) and (e) of this
461 section, signage that may be changed at intervals by electronic or
462 mechanical process or by remote control shall be permitted within six
463 hundred sixty feet of the edge of the right-of-way of any interstate,
464 federal-aid primary or other limited access state highway, except as
465 prohibited by state statute, local ordinance or zoning regulation,
466 provided such signage (1) has a static display lasting no less than six
467 seconds, (2) achieves a message change with all moving parts or
468 illumination moving or changing simultaneously over a period of
469 three seconds or less, and (3) does not display any illumination that
470 moves, appears to move or changes in intensity during the static
471 display period.

472 ~~[(f)]~~ (g) (1) Whenever the commissioner deems it in the best interest
473 of the state, ~~[he]~~ the commissioner may acquire by purchase, gift or
474 condemnation, in accordance with part IV of this chapter, the right to

475 advertise or regulate advertising in an area adjacent to the right-of-
476 way of a project on the interstate or primary system or any limited
477 access state highway. (2) The commissioner may also acquire by
478 purchase, gift or condemnation, and shall pay just compensation upon
479 the removal of the following outdoor advertising structures, signs,
480 displays and devices adjacent to interstate and federal-aid primary
481 highways which (A) were lawfully in existence on October 22, 1965, (B)
482 were lawfully on a highway made part of the interstate or primary
483 system on or after October 22, 1965, and before January 1, 1968, and (C)
484 were lawfully erected on or after January 1, 1968. Just compensation
485 for the removal of structures, signs, displays and devices along the
486 interstate and primary systems shall be paid only for the following: (i)
487 The taking from the owner of such sign, display or device of all right,
488 title, leasehold and interest in such structure, sign, display or device;
489 and (ii) the taking, from the owner of the real property on which the
490 structure, sign, display or device is located, of the right to erect and
491 maintain such structures, signs, displays and devices thereon.

492 ~~[(g)]~~ (h) Licenses or permits for outdoor structures, signs, displays
493 or devices adjacent to interstate, primary federal-aid or other limited
494 access state highways issued by the Commissioner of Public Safety in
495 accordance with chapter 411 shall be consistent with regulations and
496 standards adopted under this section.

497 ~~[(h)]~~ (i) In order to provide information in the specific interest of the
498 traveling public the Commissioner of Transportation may maintain
499 maps and may permit informational directories and advertising
500 pamphlets to be made available at safety areas, and, subject to the
501 approval of the Secretary of Commerce, may establish information
502 centers at safety rest areas for the purpose of informing the public of
503 places of interest within the state and providing such other
504 information as the commissioner may consider desirable. In addition
505 to being subject to the provisions of this section, all outdoor
506 advertising structures, signs, displays or devices shall continue to be
507 subject to the provisions of any municipal ordinance or regulation.

508 [(i)] (j) The commissioner may order the removal of any advertising
509 structure, sign, display or device along any interstate, federal-aid
510 primary, or other limited access state highway erected in violation of
511 this section. Any advertising structure, sign, display or device in
512 existence on September 1, 1965, within six hundred and sixty feet of
513 the right-of-way of any interstate, federal-aid primary, or other limited
514 access state highway may continue to be maintained until July 1, 1970,
515 but may not be replaced or relocated on such highway except (1) in
516 areas where otherwise allowed by statute or regulations adopted
517 thereunder, or (2) if such sign is removed from a building to which it is
518 attached for purposes of repair or reconstruction of the building, the
519 identical sign may be returned to its original position. Any advertising
520 structure, sign, display or device lawfully erected since September 1,
521 1965, within six hundred sixty feet of the right-of-way of any interstate,
522 federal-aid primary, or other limited access state highway and before
523 June 21, 1967, may continue to be maintained until the end of the fifth
524 year after it becomes nonconforming, but may not be replaced or
525 relocated on such highway except in areas where otherwise allowed by
526 statute or regulations adopted thereunder. If the person, firm or
527 corporation in control of or owning a structure, sign, display or device
528 or whose name appears thereon does not remove it within fourteen
529 days after an order of removal has been sent to such person, firm or
530 corporation by registered or certified mail, said commissioner may
531 cause such structure, sign, display or device to be removed and the
532 expense of such removal may be collected from the person, firm or
533 corporation owning or controlling the same in an action based on the
534 provisions of this section, or from the sureties on the bond filed by a
535 nonresident person, firm or corporation pursuant to section 21-54.

536 [(j)] (k) Any person violating any provision of this section shall be
537 fined not more than one hundred dollars for each such violation.

538 Sec. 39. Section 13a-126 of the general statutes is repealed and the
539 following is substituted in lieu thereof (*Effective October 1, 2003*):

540 As used in this section, "public service facility" [means and] includes

541 all privately, publicly or cooperatively owned lines, facilities and
542 systems for producing, transmitting or distributing communications,
543 cable television, power, electricity, light, heat, gas, oil, crude products,
544 water, steam, waste, storm water not connected with highway
545 drainage and any other similar commodities, including fire and police
546 signal systems and street lighting systems which directly or indirectly
547 serve the public. Whenever the commissioner determines that any
548 public service facility located within, on, along, over or under any land
549 comprising the right-of-way of a state highway or any other public
550 highway when necessitated by the construction or reconstruction of a
551 state highway shall be readjusted or relocated in or removed from such
552 right-of-way, [he] the commissioner shall issue an appropriate order to
553 the company, corporation or municipality owning or operating such
554 facility, and such company, corporation or municipality shall readjust,
555 relocate or remove the same promptly in accordance with such order;
556 provided an equitable share of the cost of such readjustment,
557 relocation or removal, including the cost of installing and constructing
558 a facility of equal capacity in a new location, shall be borne by the
559 state. Such equitable share, in the case of or in connection with the
560 construction or reconstruction of any limited access highway, shall be
561 the entire cost, less the deductions [hereinafter] provided in this
562 section, and, in the case of or in connection with the construction or
563 reconstruction of any other state highway, shall be such portion or all
564 of the entire cost, less the deductions [hereinafter] provided in this
565 section, as may be fair and just under all the circumstances, but shall
566 not be less than fifty per cent of such cost after the deductions
567 [hereinafter] provided in this section. In establishing the equitable
568 share of the cost to be borne by the state, there shall be deducted from
569 the cost of the readjusted, relocated or removed facilities a sum based
570 on a consideration of the value of materials salvaged from existing
571 installations, the cost of the original installation, the life expectancy of
572 the original facility and the unexpired term of such life use. When any
573 facility is removed from the right-of-way of a public highway to a
574 private right-of-way, the state shall not pay for such private right-of-
575 way, provided, when a municipally-owned facility is thus removed

576 from a municipally-owned highway, the state shall pay for the private
577 right-of-way needed by the municipality for such relocation. If the
578 commissioner and the company, corporation or municipality owning
579 or operating such facility cannot agree upon the share of the cost to be
580 borne by the state, either may apply to the superior court for the
581 judicial district within which such highway is situated, or, if said court
582 is not in session, to any judge thereof, for a determination of the cost to
583 be borne by the state, and said court or such judge, after causing notice
584 of the pendency of such application to be given to the other party, shall
585 appoint a state referee to make such determination. Such referee,
586 having given at least ten days' notice to the parties interested of the
587 time and place of the hearing, shall hear both parties, shall view such
588 highway, shall take such testimony as such referee deems material and
589 shall thereupon determine the amount of the cost to be borne by the
590 state and [forthwith] immediately report to the court. If the report is
591 accepted by the court, such determination shall, subject to right of
592 appeal as in civil actions, be conclusive upon both parties.

593 Sec. 40. Section 13a-127 of the general statutes is repealed and the
594 following is substituted in lieu thereof (*Effective October 1, 2003*):

595 The commissioner [is authorized to] may contract with any person,
596 partnership, association or corporation, desiring the use of the project
597 authorized by section 13a-32, as amended by this act, the Gold Star
598 Memorial Bridge or the Old Lyme and Old Saybrook Bridge, or the
599 appurtenances and approaches or any part of such project or bridges,
600 for placing thereon water, steam, gas or oil pipelines, telephone,
601 telegraph, electric light or power lines, or for any other purpose, and to
602 fix the terms, conditions and rates and charges for such use.

603 Sec. 41. Section 13a-129 of the general statutes is repealed and the
604 following is substituted in lieu thereof (*Effective October 1, 2003*):

605 Upon twelve days' notice of such petition to such town or towns
606 and to all owners of land abutting on such highways and to such other
607 persons as the court orders, served and returned in the same manner

608 as in civil process, said court shall hear and decide such petition and,
609 upon finding the allegations to be true, shall grant the discontinuance
610 or alteration of such highways, prescribing in its judgment any
611 modifications of such discontinuance or alteration [prayed for]
612 requested in such petition, or any layout of a new highway or
613 highways in lieu thereof, as said court deems to be required by public
614 convenience and necessity. Said court shall, in such judgment, appoint
615 a committee of three disinterested persons to make a survey and
616 layout in accordance [therewith] with such judgment and, upon such
617 notice to the parties in interest as the court orders, to estimate the
618 damages sustained by any person and to report in writing their
619 [doings] actions to said court. Upon acceptance of such report by said
620 court and payment of damages by the petitioner to the parties found to
621 be entitled thereto or deposit of the same in said court for their use,
622 such discontinuance, alteration or new layout shall become effectual,
623 and the applicant shall [forthwith] immediately construct such
624 highway as altered or laid out, at its own expense and in the manner
625 determined by said court, and shall cause a certified copy of such
626 judgment and of the report of such committee as accepted to be
627 recorded in the land records of each town in which any part of such
628 highway so discontinued, altered or laid out is situated. Appeal from
629 the judgment granting such petition or from the judgment of the court
630 accepting such report may be taken by any party in interest in the
631 same manner as is prescribed by law for appeals in civil actions.

632 Sec. 42. Section 13a-133 of the general statutes is repealed and the
633 following is substituted in lieu thereof (*Effective October 1, 2003*):

634 The commissioner [is authorized to] may enter into agreements with
635 railroad corporations for the purpose of performing any work which
636 may be necessary in connection with the construction of highways,
637 bridges and other public works undertaken by the Department of
638 Transportation whenever such construction or work would entail
639 relocation, alteration or other work on the tracks, bridges or other
640 property of such corporations. Any such agreement, subject to the
641 approval of the State Treasurer, may provide for the monthly

642 advancement of funds to a special bank account administered jointly
643 by the railroad corporations and the State Treasurer, for the purpose of
644 covering the cost of such work, whenever it appears that otherwise
645 delay would result in the reasonable progress of such work which
646 would unreasonably obstruct and impede the construction of
647 highways and disrupt the free flow of public transportation.

648 Sec. 43. Section 13a-135 of the general statutes is repealed and the
649 following is substituted in lieu thereof (*Effective October 1, 2003*):

650 The commissioner [is authorized to] may take, under the provisions
651 of the general statutes relating to the taking of land for highway
652 purposes, the ties, track appurtenances and rails of any disbanded or
653 defunct street railway company, as defined in section 16-1, in state
654 highways or bridges or, by agreement with any operating street
655 railway company, [to] take title to and possession of, on behalf of the
656 state, any ties, rails or other track appurtenances in such highways or
657 bridges, and thereupon such street railway company shall be relieved
658 of all obligations with respect to construction, reconstruction, repair
659 and maintenance of any part of such highways or bridges or with
660 respect to the removal of such ties, rails and other track appurtenances.

661 Sec. 44. Section 13a-198c of the general statutes is repealed and the
662 following is substituted in lieu thereof (*Effective October 1, 2003*):

664 shall, subject to approval by the Governor of allotment of funds
665 therefor, [to] undertake and proceed with the projects described in
666 section 13a-198b, and, [to that end] for such purpose, the
667 Commissioner of Transportation with respect to any such project [is
668 authorized to] may do and perform any act or thing regarding the
669 projects which are [mentioned or] referred to in [said] section 13a-198b.

670 Sec. 45. Section 13a-198d of the general statutes is repealed and the
671 following is substituted in lieu thereof (*Effective October 1, 2003*):

673 by this act, and in order to effectuate the purposes of [said] sections
674 13a-198a to 13a-198j, inclusive, as amended by this act, the
675 Commissioner of Transportation [is authorized (a) to] may (1) plan,
676 design, lay out, construct, reconstruct, relocate, improve, maintain and
677 operate the projects, and reconstruct and relocate existing highways,

679 same, whether or not so reconstructed or relocated or otherwise
680 changed or improved, as parts of such projects; [(b) to] (2) retain and
681 employ consultants and assistants on a contract or other basis for
682 rendering professional, legal, fiscal, engineering, technical or other
683 assistance and advice; and [(c) to] (3) do all things necessary or
684 convenient to carry out the purposes and duties and exercise the
685 powers expressly given in sections 13a-198a to 13a-198j, inclusive, as
686 amended by this act. Except as otherwise stated in section 13a-198c, as
687 amended by this act, nothing contained in sections 13a-198a to 13a-
688 198j, inclusive, as amended by this act, shall be construed to limit or
689 restrict, with respect to the projects, any power, right or authority of
690 the Commissioner of Transportation existing under or pursuant to any
691 other law.

692 Sec. 46. Section 13a-247 of the general statutes is repealed and the
693 following is substituted in lieu thereof (*Effective October 1, 2003*):

697 drainage from, any state highway without the written permission of
698 the commissioner. [, and said] Said commissioner may fill in or close
699 any such excavation or remove or alter any such obstruction or
700 substruction, and the expense incurred by the commissioner in such
701 filling or removing or altering shall be paid by the person, firm or

707 the provisions of a permit shall be removed or altered by the person,
708 firm or corporation making or maintaining the same within thirty days
709 from the date when said commissioner sends by registered or certified
710 mail, postage prepaid, a notice to such person, firm or corporation,
711 ordering such removal or alteration.

712 (b) Any person, firm or corporation violating any provision of
713 subsection (a) of this section shall be fined not more than one hundred

782 agreements to establish such controls as may be mutually agreeable for
783 the determination of the research to be undertaken in accordance with
784 such program and to determine their respective responsibilities
785 relative to administration, financing and the publication of findings. If

968 system becomes damaged as a result of such disaster, or (2) whenever
969 the commissioner declares that an emergency condition exists on any
970 highway in the state which demands immediate attention to insure the
971 safety of the traveling public, whether or not such highway is
972 damaged, the commissioner may, notwithstanding any other provision
973 of the general statutes, employ, in any manner, such assistance as [he
974 may require] may be required to restore said highway system to a

978 following is substituted in lieu thereof (*Effective October 1, 2003*):

979 Upon receipt of the signed and certified registration form required
980 and the requisite fee, as provided for in section 13b-39d, as amended
981 by this act, the municipal registration official shall assign a registration

982 number and provide the owner with a registration decal and certificate
 983 of registration. Such registration decal shall be displayed on the right
 984 side of the aircraft tail below the horizontal stabilizer. The number
 985 shall be maintained in a legible condition and shall be clearly visible
 986 and entirely unobscured. The certificate shall state the name of the
 987 owner, [his] such owner's address, a description of the aircraft, the
 988 expiration date of the certificate and such other information as the
 989 commissioner may prescribe by regulation adopted, in accordance
 990 with chapter 54. Such certificate shall be carried aboard the aircraft and
 991 shall be available for inspection upon the aircraft for which it is issued

999 Aircraft manufactured before 1946 shall pay the lesser of one hundred

 1001 this section. The commissioner may establish, by regulations adopted
 1002 in accordance with the provisions of chapter 54, a uniform schedule for
 1003 the expiration and renewal of registrations and may prorate the fees in
 1004 this section accordingly. Any person or firm that acquires ownership

1005 of an aircraft shall [be required to] obtain a new registration in the
 1006 name of such owner within thirty days of the date of such acquisition,
 1007 provided no additional registration fee shall be payable in cases where
 1008 one or more new ownership interests are being added to the
 1009 registration or in cases of legal change of name of the registrant. All
 1010 registrations [must] shall be renewed within thirty days of the date of
 1011 expiration as stated in the certificate. If a valid certificate or number
 1012 decal is lost, mutilated or destroyed, the aircraft owner shall notify the
 1013 municipal registration official within fifteen days, and such owner
 1014 shall be issued a duplicate certificate or number decal upon payment
 1015 of a fee of five dollars.

1016 Sec. 61. Section 13b-44 of the general statutes is repealed and the
 1017 following is substituted in lieu thereof (*Effective October 1, 2003*):

1018 (a) The state may establish, maintain and operate, and may expand,
 1019 an airport at any location within the state in the following manner. The
 1020 commissioner shall conduct and complete a study of the adequacy of
 1021 existing airports, which study may be based upon the study
 1022 authorized under section 13b-16, and shall determine the necessity for
 1023 the establishment of additional airports or the expansion of existing
 1024 airports. The commissioner shall, within one year of the completion of
 1025 such study, formulate and adopt a plan of development which shall
 1026 incorporate the findings of such study, showing the necessity for such
 1027 establishment or expansion, in a manner consistent with the
 1028 comprehensive long-range master transportation plan. The plan of
 1029 development shall specify the lands or interests [therein] in such lands
 1030 the acquisition of which the commissioner deems necessary for such
 1031 establishment or expansion and a copy of such plan of development
 1032 shall be filed in the office of the town clerk of each municipality in
 1033 which such establishment or expansion is proposed.

1034 (b) The commissioner shall cause a public hearing to be held at the
 1035 expense of the department in each municipality in which such lands or
 1036 interests [therein] in such lands are located. At such hearing the
 1037 commissioner shall present and explain the plan of development, and

1038 any persons who are opposed to such plan may be heard and may
1039 state their reasons [therefor] for such opposition. Such hearing shall be
1040 held not earlier than thirty days after such plan has been filed in the
1041 office of the town clerk of the municipality. Notice of the time and
1042 place of such hearing shall be published in a newspaper having a
1043 substantial circulation in such municipality at least twice, at intervals
1044 of not less than two days, the first not more than fifteen days nor less
1045 than ten days and the second not less than two days before such
1046 hearing.

1047 (c) Upon the completion of such hearing, the commissioner shall
1048 consider all the evidence relevant to the proposed plan of
1049 development, and if [he] the commissioner determines that the airport
1050 establishment or expansion provided in the plan is necessary, shall
1051 make such changes or modifications in the plan as are in the public
1052 interest. The commissioner shall file a copy of the revised plan,
1053 showing the changes or modifications made, in the office of the town
1054 clerk of the municipality and shall notify and send a copy of such
1055 revised plan to the chief executive officer or first selectman of such
1056 municipality. Such notice shall contain the request that the
1057 municipality approve the proposed establishment or expansion, which
1058 approval shall be by vote of a town or borough, and by vote of the city
1059 council of a city.

1060 (d) If the municipality fails or neglects to act upon a request for
1061 approval within sixty days after the receipt [thereof] of such request by
1062 its chief executive officer or first selectman, the municipality shall be
1063 deemed to have approved of such establishment or expansion. If the
1064 municipality by vote disapproves of the establishment or expansion,
1065 the commissioner may, within thirty days following such vote, appeal
1066 to the superior court for the judicial district in which the municipality
1067 is located and the appeal shall be accorded a privileged status. The
1068 court shall, after hearing, determine whether the commissioner has
1069 proven the necessity for the establishment or expansion of an airport
1070 within the municipality and the burden of proving such necessity shall
1071 be upon the commissioner. If the court, after hearing, determines that

1072 the commissioner has not sustained such burden of proof, the court
1073 shall enter judgment for, and may award reasonable costs to, the
1074 municipality. If the court, after hearing, determines that the
1075 commissioner has sustained such burden of proof, the court may set
1076 aside the action of the municipality disapproving the establishment or
1077 expansion and may enter such order upon such terms and conditions
1078 as it deems appropriate to safeguard the rights of the parties and the
1079 public.

1080 (e) After a plan has been legally approved, or its disapproval has
1081 been set aside by the Superior Court, the state may take any lands or
1082 interests [therein] in such lands contained in the plan upon paying just
1083 compensation to the owner. In case the state cannot agree with such
1084 owner [upon] on the amount of such compensation, the amount shall
1085 be determined in the manner prescribed in section 48-12. An appeal
1086 from the amount so determined shall not act as a stay of the taking of
1087 such land, provided no facility or land or interest [therein] in such land
1088 held by a public service company for service to the public shall be so
1089 taken or removed unless, at the expense of the state, an adequate and
1090 equal substitute approved by the Department of Public Utility Control
1091 shall first be provided.

1092 Sec. 62. Section 13b-45 of the general statutes is repealed and the
1093 following is substituted in lieu thereof (*Effective October 1, 2003*):

1094 Before exercising any of the powers conferred in sections 13b-43 and
1095 13b-44, as amended by this act, the commissioner shall establish and
1096 publish in detailed form, available to the public, the standards [he] the
1097 commissioner has adopted and will apply in making a determination
1098 that public convenience and necessity require the taking of any parcel
1099 of land or interest [therein] in such land.

1100 Sec. 63. Section 13b-48 of the general statutes is repealed and the
1101 following is substituted in lieu thereof (*Effective October 1, 2003*):

1102 Upon receipt of any application for a certificate of approval of an
1103 airport, heliport or restricted landing area, or an original license to use

1104 or operate an airport, heliport, restricted landing area or other air
 1105 navigation facility, the commissioner shall send notice thereof by
 1106 registered or certified mail to the chief executive officer or first
 1107 selectman of the municipality or municipalities in which the proposed
 1108 airport, heliport, restricted landing area or other air navigation facility
 1109 is proposed to be located. If the applicant, or such municipality within
 1110 fifteen days after receipt of such notice, requests a public hearing, the
 1111 commissioner shall set a time and place [therefor] for such hearing in
 1112 the municipality in which the proposed airport, heliport, restricted
 1113 landing area or other air navigation facility is proposed to be situated,
 1114 at which hearing interested parties shall have an opportunity to be
 1115 heard. The commissioner may [in his discretion] hold a public hearing
 1116 in any case where no such request is made. Notice of any such hearing
 1117 shall be published by the commissioner in a newspaper of general
 1118 circulation in such municipality at least twice, the first publication to
 1119 be at least fifteen days prior to the date of the hearing. Upon the
 1120 conclusion of such hearing, the commissioner shall consider all the
 1121 relevant evidence and shall issue an order granting or denying such
 1122 application, written notice of which shall be sent by registered or
 1123 certified mail to the applicant and to the chief executive officer or the
 1124 first selectman of the municipality or municipalities in which the
 1125 proposed airport, heliport, restricted landing area or other air
 1126 navigation facility is to be located. Orders issued pursuant to this
 1127 section shall comply with the requirements of section 15-66 and shall
 1128 be subject to appeal as provided in section 15-67.

1129 Sec. 64. Section 13b-49 of the general statutes is repealed and the
 1130 following is substituted in lieu thereof (*Effective October 1, 2003*):

1131 The commissioner may revoke temporarily or permanently any
 1132 certificate of approval or license upon a determination that an airport,
 1133 heliport, restricted landing area or other navigation facility is not being
 1134 maintained or used in accordance with the provisions of this chapter,
 1135 or chapter 266, or any regulations [promulgated] adopted pursuant
 1136 [thereto] to said chapters.

1137 Sec. 65. Section 13b-50 of the general statutes is repealed and the
1138 following is substituted in lieu thereof (*Effective October 1, 2003*):

1143 facilities in this state where federal financial aid is received and to
1144 comply with the provisions of the laws of the United States and any
1145 regulations made [thereunder] under such laws for the expenditure of

1147 commissioner [is authorized to] may accept, receive and receipt for

1169 acquisition, construction, enlargement, improvement, maintenance,

1170 equipment or operation of such airports or other air navigation
1171 facilities, and may enter into an agreement with the commissioner
1172 prescribing the terms and conditions of such agency in accordance
1173 with federal laws, rules and regulations and applicable laws of this
1174 state. Such moneys as are paid by the United States government shall
1175 be paid to such municipality under such terms and conditions as may

1179 other air navigation facilities, made by the municipality itself or
1180 through the commissioner, shall be made pursuant to the laws of this
1181 state governing the making of like contracts; provided, where such

1192 owned or controlled, or to be owned or controlled, by such
1193 municipality or municipalities, out of appropriations made by the
1194 General Assembly for such purposes. Such financial assistance may be
1195 furnished in connection with federal or other financial aid for the same

1199 procedures to be followed in granting funds under this subsection and

1220 the purpose for which it was acquired, and to execute and deliver

1634 following is substituted in lieu thereof (*Effective October 1, 2003*):

1635 When a railroad has been laid out, located or constructed so near a
1636 highway as, in the opinion of the selectmen of any town, the mayor of

1638 situated, to endanger public travel, such selectmen, mayor or warden

1640 setting forth the facts; and the commissioner, after reasonable notice to
1641 the railroad company to appear and be heard in relation thereto, shall,

1643 of such highway is practicable, [forthwith] immediately order such
1644 company to make such change, in such manner as the commissioner
1645 may determine. The expense of such change, including the cost of
1646 fencing such relocated highway, shall, if such railroad has not been
1647 constructed at the time of bringing such petition, be paid by the
1648 company, but, if the railroad has been constructed at such time, one-
1649 half of such expense shall be paid by the company and one-half by
1650 such town, city or borough.

[On and after June 20, 1961, no] No private crossing shall be established, except that the Commissioner of Transportation may authorize the establishment of a private crossing if it is deemed necessary for the economic welfare of the community but only after imposing specific requirements for the protection of persons using the crossing. The cost of meeting such protection requirements shall be borne by the party requesting such private crossing or the town, city or borough in which such crossing is located may, in its discretion, assume all or part of such cost. [This] The provisions of this section shall not apply to a private crossing [to be] used by a railroad company in connection with its operation or for access to its facilities.

Upon failure of a person, association or corporation to comply with an order issued pursuant to this subsection, the required installation shall be made by the authority issuing such order and the expense [thereof] of such installation shall be a lien on premises owned by such person, association or corporation. If under the provisions of subsection (d) of this section the Commissioner of Transportation and the State Traffic Commission order the erection of traffic control devices at a private crossing and the town, city or borough within which such crossing is located fails to erect or have erected such devices within one hundred [and] eighty days of such order, the Commissioner of Transportation and the State Traffic Commission shall order the railroad to erect such devices and the expense [thereof] of such erection shall be a lien on premises owned by the person, association or corporation that owns or has the

1691 invoke the provisions of this subsection for the purpose of complying
1692 with such order, and the cost [thereof] of such compliance, if one

1694 borough and one-half by the property owner and, if over one thousand
1695 dollars, shall be borne one-sixth by the town, city or borough, one-
1696 sixth by the state, one-third by the property owner, and one-third by
1697 the railroad.

1698 (c) The town, city or borough within which any private way leads to
1699 a private crossing from a town, city or borough highway, and the
1700 Commissioner of Transportation, in the case of any private way which
1701 leads to a private crossing from a state highway, shall erect and
1702 maintain at the entrance to such private way a suitable sign warning of
1703 the railroad grade crossing.

1704 (d) The State Traffic Commission and the Commissioner of
1705 Transportation shall prescribe the nature of traffic control devices and

1707 approaches [thereto] to such private crossings.

1708 (e) The Commissioner of Transportation shall make all necessary
1709 orders for the closing of any private crossing if [he] the commissioner
1710 finds that the necessity for such crossing has ceased or that such
1711 private crossing constitutes a hazard to public safety. The
1712 commissioner may order the consolidation into one crossing of two or
1713 more private crossings located in close proximity to each other.

1739 conformity to the order of the Commissioner of Transportation, such
1740 company may collect the cost of erecting and maintaining such fence
